MISSION

To prepare global citizens with the knowledge, skills and values to lead and improve a rapidly changing world.

Admissions Policy

The Admissions Policy is established so that the processes that allow the entry of new students to the institution are fair, professional, and collaborate with the fulfillment of the objectives of Colegio Interamericano. The Admissions Office must ensure compliance with this policy, collaborating with the General Director for the same purpose.

The identity of the members of the Admissions Committee appointed by the Board of Directors is confidential. The Admissions Committee is made up of the School's Admissions department, General Director, Technical Director, Principals, Counselors, Support Program and members of the Board of Directors.

All cases of new admissions, from Preschool to Grade 12, must receive the final approval by the school's Admissions Committee once all other requirements and evaluations have been completed and met. The Admissions Committee reviews the candidate files and will make the final decision to ensure the welfare and safety of the school. Only after final approval by the Admissions Committee, will the Admissions Department inform the family that the student has been accepted, or not, into the school.
